Transfers For Combining the Red Sea Aggressor II With the Nile Queen River Cruise

For guests traveling on the Red Sea Aggressor II combined with the Nile Queen, transfers can be arranged for you and are scheduled at the below times. There is an additional charge for this and reservations must be made at least 7 days in advance.

Updated June 9, 2021 Information subject to change without notice

Nile Queen/Red Sea Aggressor II: 11 am departure from Aswan to Hurghada to board the Red Sea Aggressor II.

Red Sea Aggressor II/Nile Queen: 7 am departure from Hurghada to Luxor to board the Nile Queen.

REQUIRED MEDICAL DIVING FORM: The Government of Egypt requires that all dive operations obtain a Diving Medical History form before allowing anybody to participate in recreational diving activities (certified and non-certified). The universal RSTC Medical History Questionnaire is acceptable. If you answer YES to any of the questions, you will need to visit with your local medical professional for an examination and obtain their approval (via their signature) before participating in recreational diving. A positive reason simply means that there is a pre-existing condition that may affect your safety while diving and you must seek the advice and approval of a medical professional before engaging in diving activities.

PLEASE BRING A COMPLETED COPY OF THIS FORM WITH YOU TO THE YACHT. In some countries, divers are required to have a medical exam every year. If you already have a signed medical for recreational diving (that may use a different form), dated less than 12 months from the date of your upcoming trip, then that will be acceptable as well. If you do not bring a completed copy of this form with you to the yacht, you will be required to complete it onboard. However, be advised, that there are no medical facilities available nearby that can provide a medical consultation if needed. We strongly recommend that everyone take a moment to review and complete this form now - before your travels.

The link will be emailed to you 60 days prior to departure or, you can print it by going to www.aggressor.com/RSTCMedical.pdf

AIRLINE TRAVEL & CHECKED BAGGAGE TO EGYPT

Check with your airline or airlines (if traveling with more than one carrier) regarding luggage allowances, limitations and overage fees. Some airlines have seasonal restrictions to certain destinations that may limit guests to one checked bag or a maximum weight of all checked bags and prohibit extra pieces or over weight pieces. Paper copies of airline tickets should be hand carried, as some Egyptian airports still require these with confirmation numbers.

FEES & TAXES (USD)

Upon arrival to Egypt, all guests must pay an entry visa of \$25 in cash only. For all included transfers an English-speaking guide will meet and greet you to assist you with your luggage inside the airport and another English-speaking guide will be waiting for guests outside the airport. A multi-entry visa is not available. If you'd like to apply for the visa prior to your trip, visit the following site for more information: <https://visa2egypt.gov.eg/eVisa/FAQ>

- USD \$50 Port fee per person and a USD \$100 Marine Park fee per person to visit Ras Mohamed & Tiran. These fees are paid onboard the yacht and may be paid by Visa, Mastercard, or cash (USD, Euros, English pounds or EGP - Egyptian pounds). (traveller's checks are not accepted in Egypt)

We recommend guests arrive in Egypt on Friday, one day prior to the start day of the charter. Once guests are onboard and the yacht is given clearance to leave the port by the local authorities, no one can board the yacht after this time or deliver any lost luggage. - Avoid traveling with single-use plastics.

- Travel with a reusable cloth facemask or neck gator verses a disposable one.
- Travel with a refillable water bottle for hydration.
- Use rechargeable batteries.
- Use an environmentally safe (i.e.: "Reef Safe") sunscreen, or better yet use fabric to cover up instead of relying on chemical protection.
- Conserve and responsibly use fresh water when at your adventure destination.
- Be environmentally conscious in everything you do.

There is a variety of nightly entertainment, including diving, marine life identification presentations, movies, games and more. If you have a favorite movie, digital slide show or a video to share, we encourage you to bring it along. The staff especially loves new releases of movies, recent magazines

Whether it's your anniversary, birthday, honeymoon, wedding or you are celebrating a 100th dive; please let us know so the staff can celebrate your occasion. Kindly advise the US office prior to traveling so the staff is notified in advance.

DIVING CONDITIONS

You'll be diving in water that averages 74°-82° degrees or 23°-28°C. Most guests make as many 4 dives each day, so some sort of protection is needed. A 3 – 5 mm wetsuit in the summer and 7mm in winter should be comfortable and adequate. We suggest divers bring safety items such as a Dive Alert, Safety Sausage, Nautilus Lifeline (Nautilus Lifelines available onboard for rent) and any other safety items you feel necessary. Dive computers are mandatory so please bring yours or complete the dive computer rental form in the GIS.

DIVING

The staff of the Red Sea Aggressor II, with their unique combination of talents, offers the ultimate in service. While onboard you may pick a buddy of your choice or dive with one of the yacht's staff members. There is ample storage space for your diving equipment. The Red Sea Aggressor II provides 12 litre aluminium tanks, weight belts, and weights and has both K-valves (American type), and DIN (International) valves.

The Northern Red Sea and Straits of Tiran includes some of the most historic wrecks like Thistlegorm, Rosalie Moller, Abu Nuhas, Ras Mohamed National Park and pristine coral reefs as well as abundant marine life. The Straits of Tiran are the narrow sea passages between the Sinai and Arabian peninsulas which separate the Gulf of Aqaba from the Red Sea. These reefs, named after British cartographers (Jackson, Woodhouse, Thomas, Gordon), are world famous for their extraordinary diversity of corals and strong south-westerly currents make them home to many large pelagic fish.

In between dives, you may snorkel, explore secluded beaches, or just relax with a cold drink and mid-morning/mid afternoon snack. Guests may dive up to 4 dives per day including night diving when possible.

We suggest you pack the following: mask, fins, snorkel, and regulator with visible pressure gauge, depth gauge, dive computer, and buoyancy compensator. Strongly recommended: Spare mask, a dive watch, dive light, safety sausage with 20 feet of line, whistle, Dive Alert, mirror and/or other safety devices. Each piece of gear should be marked with waterproof paint or tape. Please see our "Captain's Log" on our website for current diving conditions. The Egyptian Government forbids tourists from carrying drone aircraft into the country. If you do enter Egypt with a drone aircraft, the Egyptian Government warns they will confiscate the drone. DPV's are not allowed in Egypt.

Diving amenities include the offer of unlimited Nitrox at \$100 for 7-night charters.

DIVING SUPERVISION

You've chosen a liveaboard vacation for the diving freedom that it offers. While in the water, you and your buddy are in charge. Every dive starts with a dive briefing from the yacht staff. However, as a certified diver, you and your buddy are responsible for planning and conducting your own dives within the limitations set forth by the briefing. The staff will be on the dive deck providing surface support for divers and will also have staff in the water offering support, u/w photography and videography, and critter spotting services as well. On some dive sites a staff member will offer to lead a group and assist

them in locating specific points of interest. However, the yacht does not offer direct supervision of dives. If you start out with a group, as long as you and your buddy remain in contact with each other and are ok –you may follow your own dive plan. Divers who desire more personal attention and structured/supervised dives should consider taking one of the yachts numerous specialty courses. An underlying skill featured in all of specialty training is planning, executing, and debriefing after your dive in order to build a more confident diver.

CONSERVATION LAWS

Aggressor Liveboards do not permit spear guns, Hawaiian slings or collecting on any of the yachts.

RENTAL DIVE EQUIPMENT

A full line of Aqua Lung Rental gear is available aboard including regulators, BCDs, Dive Computers, and Night Lights. 5mm Wetsuit rental is available; however, the yacht may not have exact specifications due to limited availability in the region.
